RUKRA 6 WIRED CORDS RJ-12 6/6

The connection cable RJ-12 6/6 are suitable for the connection of the alarm buttons RUKRA on and under the elevator cabin (RK-2006)

The cable is on both sides provided with a modular RJ-12 connector and is available in lengths of 0.5, 2 and 4 meters.

ATTENTION !!

If you want to shorten a cable or to mount a new connector, make sure that the cable is not connected to the RUKRA Elevator Phone and that the RJ-12 connector always on both sides of the same cable mounts (color on color)
