

## GENERAL

The RUKRA MINI speak module can be used in situations when the existing space behind the cabin-panel is not enough to install an Elevator Phone. The supplied speaker and pcb you can fix with double-sided tape.

**NOTE!!** If you use the RUKRA MINI speak module, the loudspeaker on the Elevator Phone must be disconnected by loosen the screw connection.

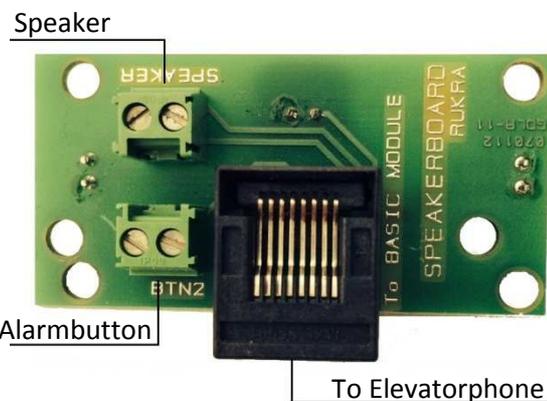

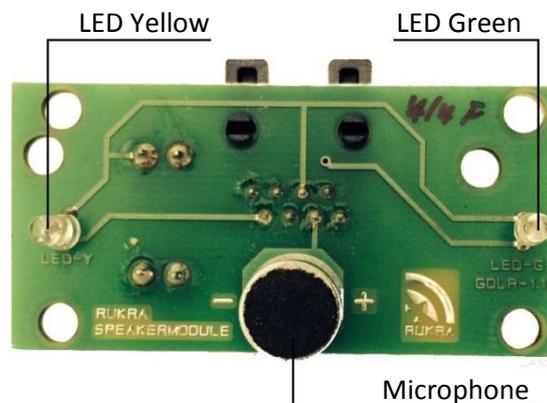

**Make sure you put the jumpers on the Elevator Phone for the microphone and LED "EXT"**

To install the base module (Elevator Phone) on the car roof there is an optional plastic housing (RK-2015) available.
