## RUKRA MACHINEROOM INTERCOM

With the RUKRA machineroom intercom you make easy connection from the engine room to the RUKRA Elevator Phone in the elevator cabin. The system communicates via the connected PSTN telephone.

**You do not need to install in the elevator additional voice module.**

The RUKRA machineroom intercom can also be used to program the RUKRA elevator Phone or other systems.

- 3-wires connection to the elevator phone.
- Plug & Play supplied.
- If the phone is picked up in the machineroom there is a connection directly to the lift telephone.
- Can also be used for programming.

**DURABLE AND  
MAINTENANCE FREE**
