RUKRA FLUSH MOUNT CARPANEL

The RUKRA car panels are made of high quality vertically brushed stainless steel.

The alarm button is equipped with two normally open (N.O.) contacts and also there are yellow LEDs (12-24VDC) present in the alarm button.

The panel is engraved with high-quality color pictograms according to the NEN 81-28.

On request, the car panels can be branded with your own logo, other dimensions or with an alarm button with telephone icon.

The panel is supplied with 4 stainless steel roundhead imbus screws (M5 * 40mm).
